

Cook County Board Meeting
January 4, 2006

The meeting agenda contained only 21 items, only one of which was not approved. Item #19, which was a request for a resolution indicating the Board's approval for the filing of an application for a Cook County Real Estate Classification 6b abatement incentive to Frain Industries, Inc for an abandoned industrial facility located at 9441 West Fullerton Avenue, Franklin Park. This item was referred to a committee chaired by Commissioner Collins.

There were meetings of the **Finance Committee** (dealing mostly with the payment of fees), **Roads and Bridges Committee** (dealing with 7 items concerned with change in plans and extra work involved with road repair) and the **Zoning and Building Committee** (dealing with 15 zoning items-all approved with almost no comment or discussion).

The meeting opened at 10:10 AM and was adjourned at 11:18 AM. As one observer put it- "it was a love-fest".
